

Quantentheorie und die Teilung der Welt

Rudolf Haag

Schliersee-Neuhaus, Waldschmidtstr. 4b

Z. Naturforsch. **54a**, 2–10 (1999); received August 7, 1998

Georg Süßmann zum 70. Geburtstag in Erinnerung an manche Gespräche.

We discuss an ontological model suggested by quantum physics. In presently existing theory its scope is limited. The judgment of the significance of these limitations depends on further developments.
