

A Heterometallic MOC Assembled from Cobalt-bisupported Keggin Subunits

Heng Liu, Ying Guo, Rui Ran, Huiyuan Ma, Haijun Pang, Huiqiu Zhang, and Chunyan Zhao

Key Laboratory of Green Chemical Engineering and Technology of College of Heilongjiang Province, College of Chemical and Environmental Engineering, Harbin University of Science and Technology, Harbin 150040, P. R. China

Supporting Information

Table S1. List of the most prominent IR bands (KBr pellet) of **1** including approximate intensity indications.

Bands	Wavenumber (cm ⁻¹)	Transmittance (%)
W–O	954	68.49
	897	66.97
	823	50.02
	725	60.27
Phen	1625	88.67
	1516	80.67
	1426	87.64
Water	3392	77.52
