El Salvador Propolis, Chalcones, Antibacterial and Antifungal Activity

$2',3'-\text{Dihydroxy-4,4'}\text{-dimethoxychalcone (1)}$ and $2',3',4\text{-trihydroxy-4'}\text{-methoxy-chalcone, two new chalcones, were isolated from propolis from El Salvador. The compounds showed significant antibacterial ana antifungal activity and moderate toxicity to } Artemia salina \text{ nauplii.}$
